

# How to Find the Right Balance?

Sartorius' new lab balance models are designed customer specific and for their individual needs and applications. The below cross reference guide will help you choose the balance that directly fits to your needs.

| Features  | Cubis®<br>MSE | Secura® | Quintix® | Practum® | Entris® |
|---|---------------|---------|----------|----------|---------|
| Modularity  | •             |         |          |          |         |
| Password Protection   | •             | •       |          |          |         |
| Monitoring of the minimum sample weight acc. to USP, Chapter 41 |               | •       |          |          |         |
| Sample & Batch Identifiers                                      | •             | •       |          |          |         |
| GLP   GMP compliant Print-Out                                   | •             | •       | •        |          |         |
| Direct Data Transfer into Windows® Applications                 |               | •       | •        | •        |         |
| Blocked Data Transfer   |               | •       |          |          |         |
| Easy to Clean   | •             | •       | •        | •        | •       |
| <b>Weighing Ranges</b>  |               |         |          |          |         |
| Advanced (including µg)   | •             |         |          |          |         |
| Standard  | •             | •       | •        | •        |         |
| Basic   | •             | •       | •        | •        | •       |
| <b>Applications</b>   |               |         |          |          |         |
| Advanced Lab Applications                                       |               | •       | •        |          |         |
| Standard Lab Application  | •             | •       | •        | •        |         |
| Basic Lab Applications  | •             | •       | •        | •        | •       |
| <b>Leveling</b>   |               |         |          |          |         |
| Automatic leveling  | •             |         |          |          |         |
| Level monitoring and control                                    | •             | •       |          |          |         |
| Manual leveling   | •             | •       | •        | •        | •       |
| <b>Interface</b>  |               |         |          |          |         |
| Bluetooth®  | •             |         |          |          |         |
| USB   | •             | •       | •        | •        |         |
| RS232   | •             | •*      | •*       | •*       | •       |
| <b>Draft Shield</b>   |               |         |          |          |         |
| Motorized Draft Shield  | •             |         |          |          |         |
| Motorized Draft Shield with deionizer                           | •             |         |          |          |         |
| Manual Draft Shield   | •             | •       | •        | •        | •       |
| <b>Operation</b>  |               |         |          |          |         |
| Keys, Liquid crystal display (black white)                      | •             |         |          |          | •       |
| Colored touchscreen   |               | •       | •        | •        |         |
| <b>Calibration</b>  |               |         |          |          |         |
