

NU-301 Horizontal Airflow Workstation

The AireGard NU-301 Horizontal Laminar Airflow Console Workstation provides a HEPA filtered clean work area that is ideal for operations requiring a particle-free, bacteria-free, clean air environment.

The NU-301 features true laminar airflow, a large 99.99% HEPA filter, disposable fiberglass pre-filters, high-capacity motor/blower, adjustable motor speed controller, Minihelic® pressure gauge, fluorescent lighting, and the HEPEX™ Zero Leak Airflow System.

Applications

Life Science Research

The clean work area provides an excellent work space for small laboratory appliances, microscopes, pipetting, or similar applications.

Pharmacy

For use in compounding sterile drug preparations or IV admixture preparation.

Animal or Plant

For procedures requiring work-in-progress protection from outside potentially harmful contaminants.

Electronic Testing, Manufacturing, or Inspections
