Dedicated to Your Success

For more than 45 years, NuAire has been committed to bringing you the highest-quality, most dependable laboratory products on the market. We are universally recognized as one of the world's leading providers of reliable equipment for the most demanding environments. Our products to feature brilliant but practical design, and we pay keen attention to every step of the production process, from fabrication to assembly to thorough testing. As a NuAire customer, you can also rely on us for outstanding value and dependable service - the cornerstones of our reputation as the leading provider of laboratory products internationally.

At NuAire, we create our high-quality products with your success in mind. This means that if you purchase a piece of laboratory equipment from us, we want you to be completely happy while using it. NuAire will work hand-in-hand with you in order to ensure that your experience using our product meets your standards, and if you encounter any issues or difficulties along the way, we'll help you work through them until you are 100% satisfied. Our philosophy is that we succeed only when you succeed - and we are committed to working hard to ensure you achieve your goals.

Reviews

"Customer service is unbelievably proactive and helpful. Couldn't ask for a better company to purchase equipment from and start a long standing relationship with."

Katie Bowden, CDC

Source: SelectScience. net

"A great choice for any cell culture lab! The NuWind bench top refrigerated centrifuge is a uniquely designed, quiet, user friendly addition to our lab. I love the capacity for 50 and 15 ml tubes, the touchscreen technology and the way it lets you know with a green check that your run has ended. It is programmable for different runs and the rotor easily changeable. I would definitely recommend this quality bench top centrifuge for the lab."

Kim Ahrens, University of Florida
