

VapLock™

HPLC Solvent Safety Systems

3 Easy Steps to Protect Your Laboratory Staff and Environment

- 1 Bottle caps maintain solvent purity
- 2 Waste solvent vapors safely contained
- 3 Absorb hazardous vapors

HPLC Solvent Delivery

VapLock™ Bottle Caps prevent hazardous vapors escaping into the laboratory and maintain the cleanliness and purity of your valuable HPLC mobile phases.

Maintain a Safe

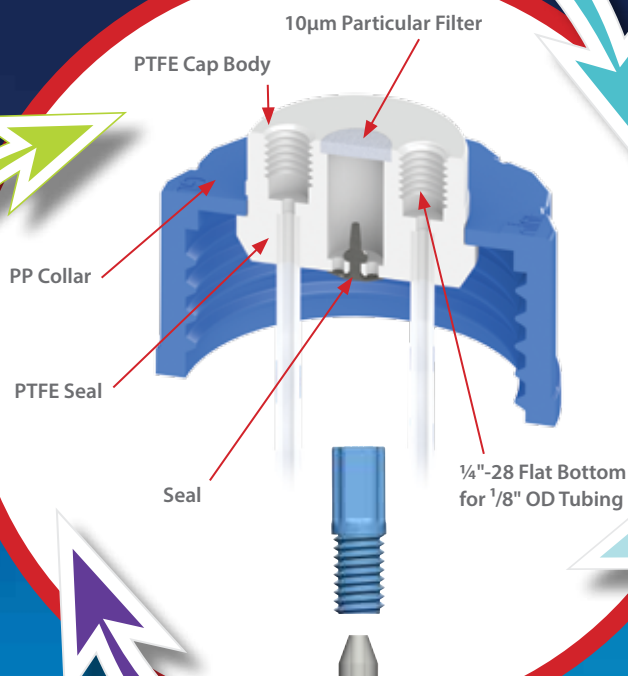

Protects the Environment and Your Analytical Results

Prevent hazardous VOC's evaporating from your HPLC solvent reservoir into the laboratory. The container remains securely closed and no air is allowed into your HPLC, so your analyses are not compromised by contamination and solvent composition change by evaporation.

STEP
1

Easy to Use and Change Your Bottles

Bottles are removed without movement and tangling of your tubes for simple quick solvent changes.

Maintain a Safe and Compliant System

Help you face safety/quality inspections without anxiety!

Easy to Connect and Reliable

The cap creates a tight seal against the solvent reservoir. Inlet tubing is connected into threaded connection ports creating a perfect seal. Filtered air enters the container to replace fluid withdrawn. A built in check valve prevents solvent vapor from escaping into the work place. All materials are HPLC solvent compatible.

Safe Collection of Solvent Waste

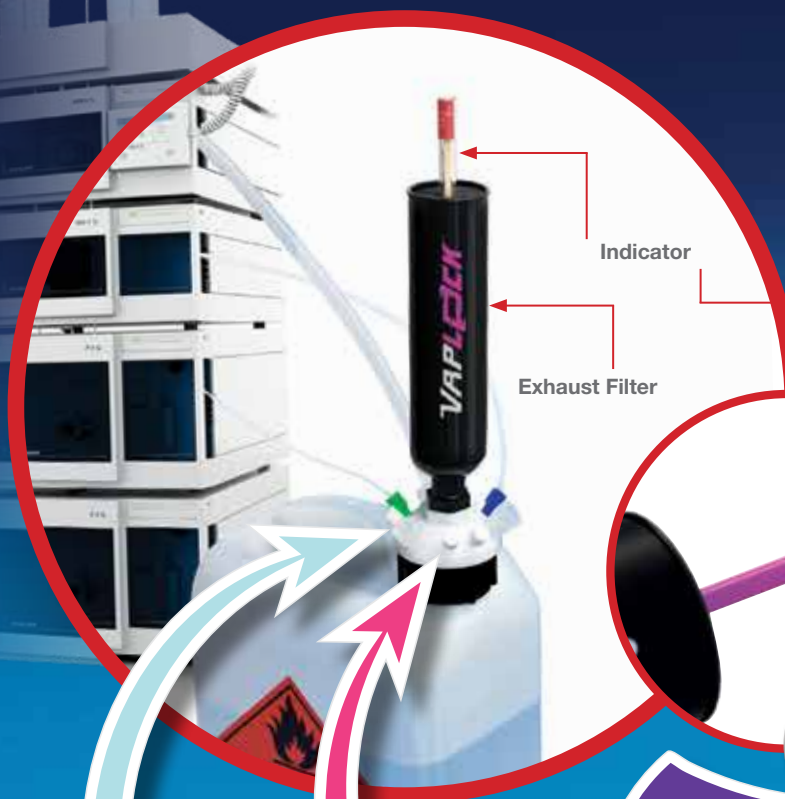

VapLock™ Waste Manifold kits

connect to any HPLC system. All waste solvent is contained in a fully enclosed and sealed system. Hazardous solvent vapors are absorbed and prevented from entering your environment.

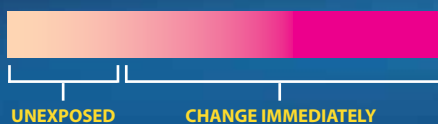

HPLC Workplace

Improved solvent collection methods compromise laboratory safety

Breakthrough Filter Indicator

STEP
3

Informative

The activated carbon filter adsorbs hazardous solvent vapors. A breakthrough indicator shows when the carbon filter is fully loaded and needs to be replaced.

Waste Manifold

The manifold has a free spinning collar allowing for a quick disconnect and prevents any tangling of solvent lines connected to the HPLC system.

Simple

The Waste Manifold attaches to your HPLC solvent waste container creating a gas tight seal.

STEP
2

Adaptable

Each manifold offers multiple connection ports for any waste line to be securely connected from your HPLC.

Kits include all fittings required.

VapLock™ Waste Manifolds and Kits

12018-58
For GL38 Containers

12019-00
For 53B Carboys

12019-12
For 61mm Containers

12019-24
For 70mm Rieke

12019-42
For 83B Carboys

All kits include a fittings kit to connect with HPLC systems

Replacement filter cartridge *with indicator*

VapLock Solvent Delivery Caps *Cap only*

PART NUMBER	DESCRIPTION
ML-12018-08	BOTTLE CAP GL45 2-ported with (2) 1/4-28 ports PTFE with Polypropylene spin collar and FFKM air inlet valve
ML-12018-09	BOTTLE CAP GL45 4-ported with (4) 1/4-28 ports PTFE with Polypropylene spin collar and FFKM air inlet valve
ML-12018-06	BOTTLE CAP GL45 2-ported with (2) 1/4-28 ports PTFE with Polypropylene spin collar and EPDM air inlet valve
ML-12018-07	BOTTLE CAP GL45 4-ported with (4) 1/4-28 ports PTFE with Polypropylene spin collar and EPDM air inlet valve

VapLock Exhaust Filters *Filter (s) and indicator*

PART NUMBER	DESCRIPTION
ML-12019-79	VAPLOCK EXHAUST FILTER, 75g, activated carbon with HDPE cartridge 1/4 NPT female port
ML-12019-81	VAPLOCK EXHAUST FILTER 5PK, 75g, activated carbon with HDPE cartridge 1/4 NPT female port
ML-12019-80	VAPLOCK EXHAUST FILTER, 75g, activated carbon with HDPE cartridge 1/4 NPT female port and Breakthrough Indicator.

VapLock Waste Manifold Kits

Manifold, filter with indicator, adapters, plugs, and tubing with connections

PART NUMBER	DESCRIPTION
ML-12018-63	VapLock Solvent Waste Kit, PTFE, 38-430, 1x1/2" NPTF, 3x1/4" NPTF, 6x1/4"-28 UNFF; 1/ea
ML-12018-68	VapLock Solvent Waste Kit, PP, 38 mm Wako, 1x1/2" NPTF, 3x1/4" NPTF, 6x1/4"-28 UNFF; 1/ea
ML-12018-69	VapLock Solvent Waste Kit, PTFE, 38 mm Wako, 1x1/2" NPTF, 3x1/4" NPTF, 6x1/4"-28 UNFF; 1/ea
ML-12018-75	VapLock Solvent Waste Kit, PTFE, GL45, 1x1/2" NPTF, 3x1/4" NPTF, 6x1/4"-28 UNFF; 1/ea
ML-12018-80	VapLock Solvent Waste Kit, PP, DIN 45, 1x1/2" NPTF, 3x1/4" NPTF, 6x1/4"-28 UNFF; 1/ea

VapLock Solvent Waste Systems

20L waste container, manifold, QC fittings, plugs, and filter

PART NUMBER	DESCRIPTION
ML-12020-69	VapLock Complete Solvent Collection System, quick disconnect, PP manifold, 20 L
ML-12020-70	VapLock Complete Solvent Collection System, quick disconnect, PTFE manifold, 20 L
