LIMITED TIME OFFER ON DOCK TO DOCK SHIPPING -

Contact us through the month of June to take advantage of
FREE FREIGHT on V-3000AB units!

Upgrade to CBS Isothermal V-3000AB cryogenic tank and experience:

- **Advanced Sample Protection** – Prevent vial explosion during rewarming
- **Increased Operator Safety** – No liquid nitrogen contact or splashing
- **Maximized Storage Space** – Use the full chamber without LN2 pooling
- **Reduced Contamination Risk** – Dry storage limits pathogen spread

Custom BioGenic Systems offers an unparalleled range of Cryogenic Storage Solutions, including our Isothermal freezer technology that provides dry storage LN2 freezing.
